**Subject:** 4 Yearly Review of Modern Awards - AM2014/257 - Architects Award; AM2014/265 - Hydrocarbons Field Geologists Award; AM/2014/287-Surveying Award - Exposure Drafts

Dear Associate

I write in connection with the abovementioned modern awards.

Due to staff absence and resourcing issues the Association was unable to meet the 21<sup>st</sup> July deadline regarding the filing of submissions in reply to the drafting and technical issues identified in the exposure drafts. This was unfortunately due to staff absence and resourcing issues and I apologise for our failure in this regard.

As there are aspects of the exposure drafts in respect of which we wish to make a submission I would seek an extension of time until 8<sup>th</sup> August to be able to do so.

Yours Sincerely

**Michael Butler**
